Professional Summary

Enthusiastic Python Full Stack Developer with a strong foundation in both front-end and back-end technologies. Passionate about building scalable, user-friendly web applications and contributing to dynamic teams. Skilled in Python, React, and modern web development practices, with hands-on experience in developing responsive, high-performance applications.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Styled Components
 - **Backend:** Python, Node.js, Fast API
 - **Database:** MySQL, PostgreSQL
 - **Tools & Libraries:** Leaflet.js, LangChain, BeautifulSoup, REST APIs, Git/GitHub
 - **Other:** Responsive Design, UI/UX Principles, Accessibility (WCAG), Figma-to-React Workflows
-

Experience

Frontend Developer Intern — Stealth-Mode Startup

June 2025 – Present

- Enhanced UI/UX of internal dashboards and tools by redesigning layouts and improving component structures.
 - Developed responsive, reusable UI components using **React.js (Hooks, Functional Components), JavaScript (ES6+), HTML5, and CSS3**.
 - Improved page performance through optimized rendering and efficient state management.
 - Implemented visually consistent interfaces using **Tailwind CSS** and Styled Components.
 - Integrated frontend screens with **REST APIs**, improving data-loading states and error handling.
 - Ensured mobile responsiveness using **Flexbox, CSS Grid, and media queries**.
 - Applied UI/UX principles and **WCAG** accessibility guidelines to enhance usability and visual clarity.
 - Collaborated with design teams to translate wireframes into functional React components.
 - Managed version control using **Git/GitHub** with clean commit history and standard branching practices.
-

Projects

1. Nxt Trendz

[🌐 shoponnxt01.ccbp.tech](#)

Developed an e-commerce platform offering exclusive Prime deals with a dynamic, user-friendly interface. Implemented efficient routing for optimized performance and seamless navigation across pages. **Technologies:** React.js, JavaScript, HTML, CSS

2. Map Integration App

[🌐 vehicle-tracking-theta.vercel.app](#)

Built an interactive vehicle tracking application simulating real-time movement using React.js and Leaflet.js. Implemented dynamic marker updates, route visualization, and responsive UI with smooth animations.

Technologies: React.js, Leaflet.js, JavaScript, JSON, HTML, CSS

Education

- Master of Computer Applications (MCA) — Andhra University — 2024–Present
 - Industry Ready Certification — Full Stack Development — NxtWave (2023 –2024)
 - Bachelor of Commerce (Financial Accounting Honors) — Karim City College (2017–2020)
-

Certificate

Full stack Development in MERN Specialization - Industry Ready Certificate
